

R.W. McKenzie Supplementary Scholarship in Aeronautical Science and Technology

ESTABLISHMENT

The entire estate of the late Mrs Majorie Nell McKenzie was bequeathed to The University of Sydney to establish the ***RW McKenzie Resource Fund for Teaching and Research in Aeronautical Science and Technology*** within the Department of Aeronautical Engineering (now part of the School of Aerospace, Mechanical, and Mechatronic Engineering). In providing funds to establish the Resource Fund, Mrs McKenzie wanted to commemorate the life of her husband, Captain Robert William McKenzie, MC, who was one of the original flying instructors of the Australian Flying Corps, the forerunner of the Royal Australian Air Force.

As part of the mission of this resource fund, a scholarship for the encouragement of higher education in aeronautical engineering is offered for a candidate for a higher degree in the School of Aerospace, Mechanical and Mechatronic Engineering. From 2009, the scholarship is offered as supplementary scholarships to holders of an Australian Postgraduate Award (APA) or equivalent award under the conditions as indicated below.

CONDITIONS OF AWARD

1. The name of the scholarship shall be the R.W. McKenzie Supplementary Scholarship in Aeronautical Science and Technology.
2. The object of the scholarship shall be to encourage postgraduate research in aeronautical engineering. The holder of the scholarship shall enrol as a full-time candidate for a higher degree by research only, in the School of Aerospace, Mechanical and Mechatronic Engineering.
3. The scholarship shall be by application and open to graduates of the University of Sydney or to any other person eligible for admission to candidature for a higher degree in the University of Sydney and hold or expect to hold an APA or equivalent award.
4. The scholarship shall be awarded on the recommendation of a selection committee consisting of the academic members of the fund's management board. The award shall be made on the basis of academic merit, provided that the previous academic record of any successful applicant shall have been deemed by the selection committee to be of sufficient merit.
5. The value of the scholarship shall be \$5,000 per annum. The selection committee may reduce the value of the scholarship if the successful applicant is holding or will hold another supplementary scholarship.
6. A scholarship shall be tenable for one year in the first instance, renewable for further periods in line with the tenure of the holder's APA or equivalent award, up to a maximum of three years.
7. A scholarship shall be renewable on the recommendation of the selection committee subject to receipt of a report from the candidate's supervisor and from the Head of the School that the candidate has been progressing to their satisfaction.
8. Scholarships shall be awarded annually subject to the availability of funds.

APPLICATION FORM

R.W. McKenzie Supplementary Scholarship in Aeronautical Science and Technology

If you are eligible and wish to apply for the R.W. McKenzie Supplementary Scholarship, please complete and return this application form along with supporting documents before 30th October for Semester 1 2015 admission.

CHECKLIST

Please complete and submit along with the detailed application information below.

- I acknowledge that to be eligible for this award I must be a recipient of an Australia Postgraduate Award (APA) or University Postgraduate Award (UPA) or International Postgraduate Research Scholarship (IRS) and enrol in research degree under the supervision of an Aeronautical academic supervisor affiliated with the McKenzie Fund..
- I have attached a copy of my undergraduate transcripts.
- I have completed all sections of the application form in a neat and legible manner.
- I have retained a copy for my personal records.

Please submit your application along with supporting documents (preferably via email) to:
